

ANOMALY DETECTION IN SUPPLY CHAIN

Sustainable Supply Chain Deep-hack

Transatlantic AI Hackathon 2022

Team 03 - AnalyticsPro

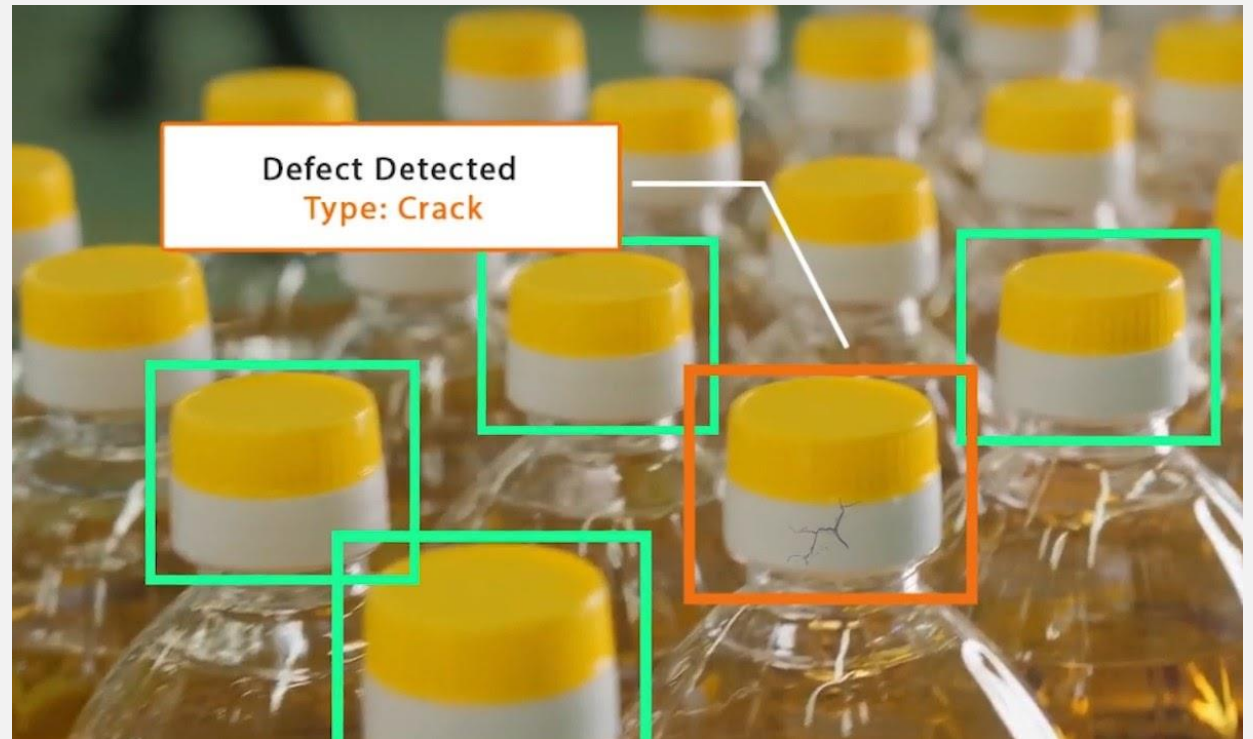

INTRODUCTION

AnalyticsPro is an use case specific Web based platform (Web APP) to provide Supply Chain anomaly solutions to manufacturing and packaging Industry.

Automating Material Transport System

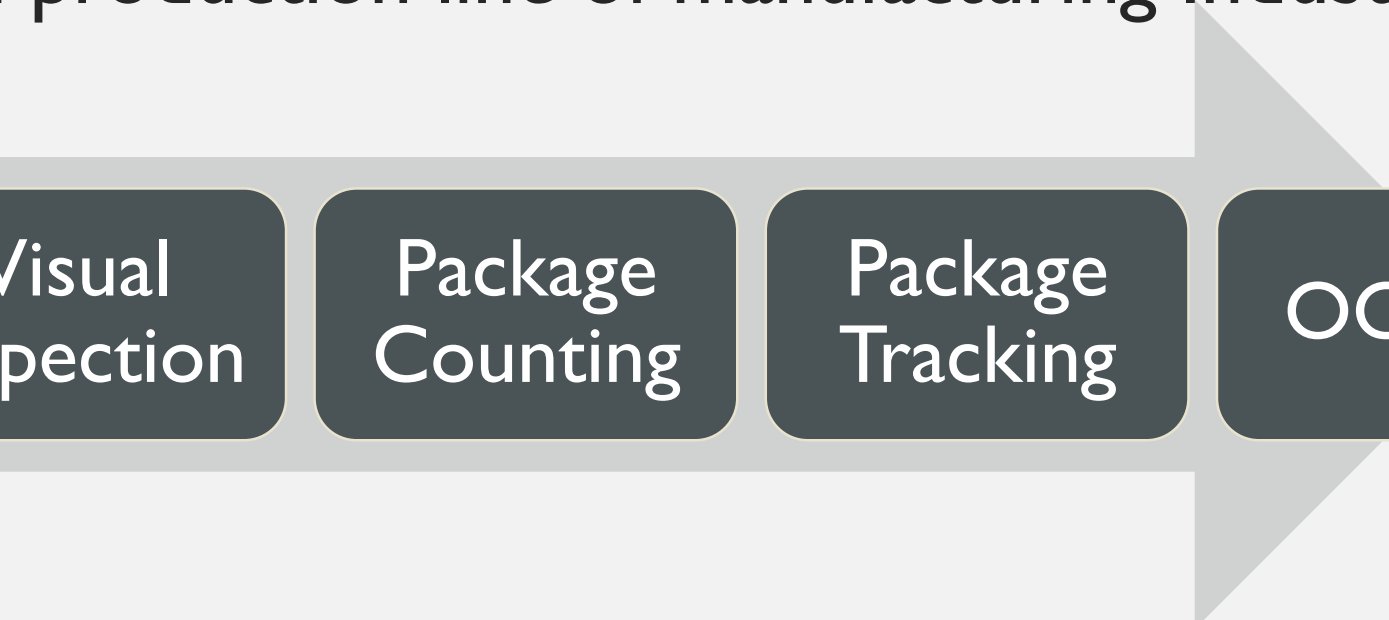

PROBLEM

Since Covid19 Supply chains are struggling to keep up with the demand and facing out of stock items, shipping delays, lost and damaged items and more.

SOLUTION

Deployment of **Deep Learning** based real-time analytics tools (Specific Web-Platform/APP) to help sorting out damaged items, quantity analysis, item recognition and Tracking in production line of manufacturing Industries.
